EUROPEAN HORTICULTURE CONGRESS

MAIN TOPICS

- Future of horticulture regionally and globally
- Challenges to achieve full sustainability
- History of National Societies of Horticulture

european horticulture congress (EHC)

The University of Agronomic Sciences and Veterinary Medicine in Bucharest organizes on 12-16 May 2024, the 5th European Horticulture Congress (<https://ehc.usamv.ro/>, <https://www.ishs.org/symposium/788>), under the auspices of the International Society for Horticultural Science (ISHS) and under the patronage of the Romanian Academy.

The European Horticulture Congress - former Symposium of Horticulture in Europe (SHE) is organized every four years, the previous editions hosted by Germany (Stuttgart - 2021), Greece (Chania - 2016), France (Angers - 2012), and Austria (Vienna - 2008).

The venue of the Congress is the Bucharest International Conference Center, within the Parliament Palace and we estimate that over 1,000 scientists will participate at 10 Symposia.

Congress in numbers

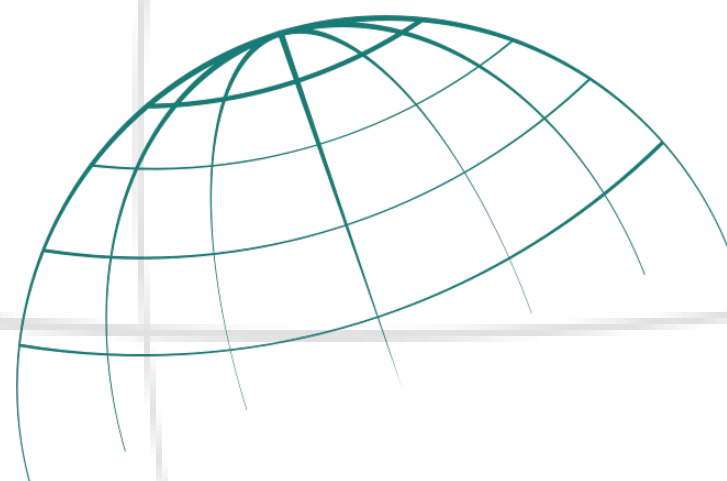

HORTICULTURE AT THE CROSSROADS

The Congress will develop a new version of horticulture and will answer 3 main topics:

1

What is the real state of horticulture regionally and globally?

2

What are the challenges to achieve full sustainability?

3

What does society expect from horticulture in the 21st century?

European Horticulture Congress

12-16 May 2024

Bucharest, Romania

**EUROPEAN
HORTICULTURE
CONGRESS**

The European Horticulture Congress is a major event addressing issues facing horticulture in the current turbulent times.

“European Horticulture at the Crossroads” is not only a title, but a reflection of current realities.

Sustainability, resilience, biodiversity, agroecology, circularity, green cities, genetic resistance, robotics and mechanization, production efficiency, are buzz words that define the wide spectrum of fields in which we all work.

Within the 10 Symposia in this Congress, science and innovation will meet industry, farmland and nature in an open dialogue about why, when and how we can and need to work together for the sustainable development of European and World Horticulture.

The International Society of Horticultural Science provides a framework for putting our knowledge, resources and energy together through its sponsorship of this Congress.

10 Symposia

EHC
12-16 May 2024
Bucharest, Romania

**EUROPEAN
HORTICULTURE
CONGRESS**

S1 – History of Horticulture in Europe

Conveners:
Ana Butcaru
Michael Blanke
Luca Dondini

S2 - Sustainable Vegetable Production from Seed to Health Booster Sources

Conveners:
Silvana Nicola
Yuksel Tuzel
Vasile Stoleru

S3 - Fruit Production Systems for a Sustainable and Resilient Development

Conveners:
Florin Stănică
Luca Corelli Grappadeli
Mekjell Meland

S4 - Viticulture and Winemaking between Tradition and Innovation

Conveners:
Arina Antoce
Darko Preiner
Gregorio Munoz

**S5 - Berries in Europe
between
Opportunities and
Challenges**

Conveners:
Adrian Asănică
Bruno Mezzeti
Ebru Kafkas

**S6 - Ornamental
Horticulture at the
Service of the
European Society**

Conveners:
Margherita Beruto
Erzsebet Buta
Sandra Marisa Gomes
Gonçalves

**S7 - Urban Horticulture,
Vertical Farming and
Landscaping Solutions for
a Sustainable Green City**

Conveners:
Leo Marcelis
Ioana Tudora
Trine Hvoslef-Eide

S8 - Genetic Resources
in Horticulture:
screening, propagation,
use and conservation

Conveners:
Dorin Sumedrea
Emmanuel Geoffriau
Geza Bujdosó

S9 – Robotics,
mechanization and
smart horticulture

Conveners:
Luigi Manfrini
Konni Biegert
Mihai Gîdea

S10 – Postharvest and
horticultural products
quality

Conveners:
Liliana Bădulescu
Dirk Kopke
Krzysztof Rutkowski

CONGRESS**

Located in Bucharest, the building is an essential piece of Romanian recent history. The Palace of the Parliament was built between 1984 and 1997, and it dominates the city's landscape due to its monumental dimensions.

It is the largest and the heaviest administrative building in the world with 240 meters in length, 270 meters in width, and 84 meters tall. At the same time, it is the world's second-largest after the Pentagon, in terms of area.
